

## ECO LAMINATOR ECONOMY (OL 289)

Backloader, small to midsize laminating demand

- Ideal for frequent use in a small office environment
- With innovative Eco-PTC-Technology, giving up to 75% energy-consumption saving in comparison to traditional laminators
- 2 heated rollers technology
- For 75 – 125 mic hot laminating pouches
- Also for cold laminating
- No need to stop and adjust when switching to another pouch thickness
- ABS-jam-release-technology for removing any misfed documents
- Back loader technology for easy-of-use
- Environmentally friendly laminator requiring no harmful flame retardant materials
- Easy to handle

**NEW:** Environmentally friendly due to 75% less energy-consumption\*

### Technical Specifications

|                  |                 |                        |                              |
|------------------|-----------------|------------------------|------------------------------|
| Product          | OL 289 (DIN A4) | Pouches                | 75– 125 mic, cold lamination |
| Colour           | black           | Operating Temperature  | 0 – 110°C                    |
| Pre-Heating-Time | 3 – 5 minutes   | Weight                 | 0,83 kg                      |
| Laminating Width | 240 mm (A4)     | Power Consumption      | 60 Watt **                   |
| Laminating Speed | 320 mm/min.     | Dimensions (W x D x H) | 330 x 190 x 57 mm            |

\* In comparison to traditional laminators

\*\* 600 Watt during the 1st minute
